Ultra Filter

The Ultimate in Home Water Filtration Systems

The Honest Water Filter Company is proud to introduce the "Ultra-Filter" whole home water filtration, a patented design by Aquamor Water Technologies.

Shown with Silver (HWF-4825PHC)
Post Filters For Chemical Reduction
And Hard Water Solution

Sub-micron (0.015) ultra-filter

99.99% four log reduction of viruses and microbial cyst (like giardia, cryptosporidium, toxoplasma and entamoeba)

Self-cleaning cycles

Ensures the safest, cleanest water coming into your home

Low operating cost and waste

The Ultra-Filter uses very little water and electricity

Post filters

Add NSF certified post filters to treat chemicals and hardness

Ultra-Filter Treats Up To

1,000,000 gallons

NSF certification pending

PLATINUM

SAFER Water For Your Family, SAFER Water For Your Home

Chlorine, Chloramines And Harmful Cyst Reduction

**Most Effective For
Chloramine Reduction**

Tested and Certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of cysts, chloramines, chlorine taste and odor. Visit www.nsf.org/health/ultra-ultra-systems

The HWF4825PHC is registered with California State Water Resources Control Board and has been included on the SWRCB 2007 Aquaplanet listing.

10 Micron "Defender" Pre-Filter

Stops large contaminants from getting into your system

Coconut shell catalytic carbon

Reduces 99.95% of chlorine and chloramines (used to disinfect your water) which makes water smell and taste bad

Sub-micron (0.2) carbon block

Reduces 99.95% of cyst (like cryptosporidium, toxoplasma, entamoeba, giardia) that may exist in municipal water.

Polyphosphates

Food-grade, FDA-approved polyphosphates treats and sequesters hard water minerals and protects plumbing from limescale formation and corrosion.

Treats a minimum of

120,000 gallons

Certified by NSF

TITANIUM

SAFER Water Right Out Of The Kitchen Faucet

Unlike standard Reverse Osmosis, the Titanium Drinking Water System does not waste water. Some R/O units use as much as 3-5 gallons to make just 1 gallon of drinking water!

Coconut shell catalytic carbon

Reduces 99.95% of chlorine (used to disinfect your water) which makes water smell and taste bad

Sub-micron (0.2) carbon block

Reduces 99.95% of bacteria that may exist in municipal water.

Connects To Kitchen Faucet

Eliminates the need for a separate glass filling faucet.

Treats a minimum of

50,000 gallons

Certified by NSF

Tested and Certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of cysts, chloramines and odor. Visit www.nsf.org/health/ultra-ultra-systems
